## The Times They Are A-Changin': How we Navigate Transitions & Contexts

**Facilitated by Relational Change Associates & Leadership Team:**

Kate Glenholmes ; Lynda Osborne ; Marie-Anne Chidiac ; Miriam Taylor;  
Naoum Liotas; Sally Denham-Vaughan

Many of us are experiencing a strong sense that our world is changing; that all the touchstones and totems that we have used to navigate our personal and professional lives have shifted and become unreliable. This raises some key questions as to how we transition these changing contexts. What can we use to guide us? How do we define our identities? How do we set boundaries and defend our sense of what is right and ethical?

During this day we will explore these questions together and journey along our timelines from the present moment, to the past and into the future.

The day will include an Introduction to the event followed by three rounds of dialogue and personal inquiry in small groups.

Experience of offering the RC Gatherings as low-cost, community CPD events, tells us that lasting professional bonds and firm friendships are created during the days. Many participants continue to meet years after the events.

Whether you are a Clinician, counsellor, psychotherapist, OD Consultant, Coach, Manager or Leader, you are very welcome!
