

# The Good, the Bad and the Ugly:

## How to Deal with the Curse of Awareness

**A five day residential programme for organisational practitioners: consultants, leaders, coaches, team managers, community workers, activists.**

**Led by Marie-Anne Chidiac, Sally Denham-Vaughan and Frans Meulmeester.**

The Relational Change annual residential programme for organisational practitioners offers a unique opportunity for a combination of theoretical, personal and skills development. Set in the beautiful location of the Malvern Hills, we will be staying at the Elim Conference Centre where you can walk directly onto the hills.

The programme theme offers a chance to explore the practical, theoretical, ethical and emotional implications of working with a relational and dialogic approach in organisations via a combination of theoretical presentations, small group process and live clinical case discussion/demonstration.

The workshop is highly recommended for both attendees and graduates of the Relational Organisational Gestalt, (ROG), programme but previous knowledge of organisational gestalt theory is not required. More important is a willingness to inquire into your own experience and support others to do the same.

All training hours can be counted towards the ECGPO, (European Certified Gestalt Practitioner in Organisations, formerly EAGT-GPO).

Places are strictly limited and offered on a first come/first serve basis. For further discussion/information please go to:
