

Working with Teams and Groups in Supervision

A Workshop for the Continued Development of Supervisors

MARIE-ANNE CHIDIAC

21& 28 March 2025– 8:30-11:30am (Online)

Although supervision used to be primarily linked to the support of mental health practitioners, today we find an increasing demand within organisations for supervision of groups and teams, whether social workers, doctors or indeed internal HR practitioners.

How does this type of work differ from the one-to-one supervision? What are both the process and contracting challenges to supervise groups and teams?

To find out more, join this workshop with Marie-Anne Chidiac, an experienced therapist and organizational consultant, which will cover this aspect of supervisory work and provide an opportunity for participants to share and get support for this type of work.
